There is a potential conflict inherent to a market maker such as Virtu Americans LLC both paying for order flow and providing price improvement as the potential source of funds for each is the same namely the anticipated profit the market maker seeks to earn from executing or facilitating the execution of RQD* Clearing LLC customer orders. Accordingly from such anticipated profit a market maker such as Virtu Americas LLC can (i) forgo a portion of such anticipated profit to provide price improvement; (ii) forgo a portion of such anticipated profit to pay for order flow; or (iii) retain a larger portion of anticipated profit and not provide (or provide less) price improvement or not provide (or provide less) payment for order flow. Furthermore, RQD* Clearing LLC and Virtu Americas LLC do not have any arrangements:
