

BMO Capital Markets Corp. SEC Rule 606 Disclosure Statement

BMO Capital Markets Corp. ("BMO CMC" or "the Firm") is providing this report pursuant to Securities and Exchange Commission ("SEC" or "Commission") Rule 606 ("the Rule"). To obtain information about the rule, you may access the following web site addresses: <http://www.sec.gov/rules/final/34-43590.htm> and <http://www.sec.gov/interps/legal/mrslb13a.htm>.

Information Concerning Venues

BMO CMC makes a market in numerous equity securities, including those listed on the NASDAQ, NYSE, NYSE ARCA and BATS exchanges. BMO CMC, in its efforts to seek best execution, routes client orders to market centers, including national securities exchanges, alternative trading systems, electronic communication networks and broker/dealers. These market centers may offer credits/rebates or charge fees based upon whether routed orders contribute liquidity to (or remove liquidity from) the market center. In some cases, the credits/rebates offered by a market center may exceed the charges assessed such that a market center may make a payment to BMO CMC in relation to orders directed to such market center (maximum 38 mils per share). BMO CMC may also receive incremental pricing benefits from market centers based upon the aggregate trading volume generated by BMO CMC (including volume not associated with client orders).

BMO CMC may internalize, and trade as principal with, non-directed customer orders in such securities in which it makes a market. Where BMO CMC internalizes non-directed customer orders in those securities in which it makes a market, the Firm stands to share in 100% profits of whatever profits it generates by trading as principal with its customer's orders.

Notes regarding Conflicts of Interest relating to Market Centers Most Often Selected by the Firm

BMO CMC, in its efforts to seek best execution, selects execution venues for customer orders that have not been specifically instructed to be routed to a specific venue. For such non-directed customer orders, BMO CMC may route such orders to its affiliate, Clearpool Execution Services. Accordingly, the Firm may share indirectly in any profits that Clearpool Execution Services derives from the execution of the Firm's client orders.

Rule 606(b)(3)

Rule 606(b)(3) also requires BMO CMC to notify its customers of their ability to receive, free of charge, information concerning the routing of the customer's orders for execution. Upon request from a customer, BMO CMC will provide a report on its handling of the customer's orders in NMS securities that were submitted for execution for the prior six months. This report will be divided into separate sections for a customer's directed orders and non-directed orders and is required to be provided within seven business days of the customer's request. Clients may request a report by contacting their sales coverage. Section (b)(1) of SEC Rule 606 requires BMO CMC to disclose to its customers, upon request, for held orders in NMS stocks and orders in NMS securities that are option contracts, the identity of the venue to which the customer's orders were routed for execution in the six months prior to the request, whether the orders were directed orders or non-directed orders, and the time of the transactions, if any, that resulted from such orders.

Important Disclaimers

BMO CMC has supplied this data and prepared these reports solely for informational purposes pursuant to Rule 606 of the Securities Exchange Act of 1934. The information and data provided in the reports is not intended to and do not reflect all factors relevant to an analysis of a broker/dealer's best execution and order routing practices. In accordance with SEC Rule 606, upon written request, BMO CMC will disclose to clients the identity of the venue to which clients orders were routed for execution, whether the orders were directed or non-directed, and the time of the executions, if any, that resulted from such orders from the previous six months.

Material Aspects:

BOX OPTIONS EXCHANGE (XBOX):

BMOC routes orders to various exchanges, alternative trading systems, including electronic communications networks, and other market centers including other Broker Dealers some of which provide BMOC with payment for order flow. Certain market centers offer cash credits for orders that provide liquidity to their books and charge explicit fees for orders that extract liquidity from their books. Periodically, the amount of credits that BMOC receives from one or more such market centers may exceed the amount that BMOC is charged. Such payments would constitute payment for order flow. Please be advised that for orders received by BMOC, BMOC receives order flow payments in varying amounts from US option exchanges market makers pursuant to the published marketing fee programs that have been adopted by the exchanges and approved by the SEC. Several option Exchanges have also adopted a maker taker market structure, in which exchange members are charged for orders that take liquidity from the exchange and receive a rebate for orders that provide liquidity to the exchange. The charges imposed or rebates offered by these exchanges affect the total cost of execution. The source and amount of any compensation received by BMOC in connection with any transaction for your account is available upon written request. A description of the fees and rebates offered by this venue, including the pricing tiers offered and the pricing for each tier, is available at:

Material Aspects:

BOX OPTIONS EXCHANGE (XBOX):

BMOC routes orders to various exchanges, alternative trading systems, including electronic communications networks, and other market centers including other Broker Dealers some of which provide BMOC with payment for order flow. Certain market centers offer cash credits for orders that provide liquidity to their books and charge explicit fees for orders that extract liquidity from their books. Periodically, the amount of credits that BMOC receives from one or more such market centers may exceed the amount that BMOC is charged. Such payments would constitute payment for order flow. Please be advised that for orders received by BMOC, BMOC receives order flow payments in varying amounts from US option exchanges market makers pursuant to the published marketing fee programs that have been adopted by the exchanges and approved by the SEC. Several option Exchanges have also adopted a maker taker market structure, in which exchange members are charged for orders that take liquidity from the exchange and receive a rebate for orders that provide liquidity to the exchange. The charges imposed or rebates offered by these exchanges affect the total cost of execution. The source and amount of any compensation received by BMOC in connection with any transaction for your account is available upon written request. A description of the fees and rebates offered by this venue, including the pricing tiers offered and the pricing for each tier, is available at:
